

Monochromatic Sunset Painting Choosing your Color

Objective: My job for this project is to use what I've already learned about color, the creation of colors (color mixing), color values, and color meanings to critically think about the use of colors and apply that to express a desired feeling in my work. By the end of this project, I will have created a painting using one color and all of its tints and shades, making a monochromatic painting of a sunset. My completed painting will have all of the landscape details; all of this being based on the color I've chosen's meaning in order to express my desired feeling.

Name: _____ Period: _____

What Desired Mood or Feeling do you want to express in your work?

Color Choice: _____

How is this color going to help express the mood or feeling you've chosen for your work? (Use references from the Color Symbolism Packet in your explanation.)

Where did you find this information? (Circle all that apply – your explanation above should have these definitions and explanations in it)
