

THE RULES OF DESIGN

Khane Blue

Macro Close-up

A very very Zoomed picture of corn, lettuce, chicken, and black beans.

Point of View

I had put the the Lego down and wanted to make it so that it looks like the lego has found a new world

Rule of Thirds

They were swinging and I found this was the perfect timing. So, I took a picture.

Leading Lines

The camera is leaned on the brick wall so that it you see the line leading to the other wall.

Rhythm/Pattern

I matches the bike holders up and took the picture so that it creates a pattern.

Texture

The texture of the brick wall is very rough and I felt like taking this photo you can feel what it feels like.

Space

To me this capture Space very well. The Foreground, Middleground, and Background.

Balance

The little children
balance each other
out.

Framing

This is like a frame, but it is not a frame.

70's
Decade

Colors

The color black is used to advertise things. Looks pretty advertise worthy to me.

Best Of The Best

I feel that this is my
best photo
because, I just
looks right and
feels right. Don't
know how else to
describe it.
