

# Photography Production Teams

**Teams:** Consist of 3-4 students only (3 preferably)  
Initial PTs will be assigned by the teacher  
PTs will change periodically throughout the year  
Assigned Seats will be determined by PTs  
Most/All PTs will be assigned seats with only their team members

**PT assignments:** ALL members of the team MUST be involved in (contribute to) the completion of the assignment AND have all PT member names included on all PT assignments turned in.

**Studio Work Time:** Students will work in their PTs during the entire duration of Studio Work time

**What does the PT do:** Support each other with ideas, help with set-ups, are each other's models (when the assignment calls for one), holds equipment (ex: light reflectors), reviews each other's photographs, helps determine the best ones to be included on both individual and PT group assignments; these are people in class you go to for photo ideas/photo advice/help with the computers....

**Code of Conduct:** Cameras, camera phones, or other recording devices may not be used in restrooms, locker rooms, changing facilities or other areas where personal privacy is a reasonable expectation.

Stay on the main campus, don't enter any classrooms (whether there is a class in there or not) or other buildings without permission, stay with your PT, share the camera (if using a class camera) and help each other get good photographs, return when you hear **the signal** OR when there are **10 minutes** left in the period.

Always ask permission to take a non-PT member's picture. NOTHING can be posted of any individual on ANY social media site without their approval (with witnesses to verify).

Inappropriate behavior or images will NOT be tolerated; your trust will be lost and all picture taking privileges suspended - as well as discipline consequences.
